Non-Elastic Tape

(firm immobilization) Non-stretch tape primarily for use in immobilization

Tearable

(WHITE)

battlewin™ Taping Tape C-Type (Non-Elastic)

Taping tape containing micropores, made by coating cotton with a rubber-based adhesive. For use in immobilizing or restricting joint range of motion, this air- and water-permeable tape is also highly sweat-resistant.

CODE	SIZE	1BOX
C12F	12mm×12m	2rolls
C19F	19mm×12m	2rolls
C25F	25mm×12m	1rolls
C25F2	25mm×12m	2rolls

C25FB	25mm×12m	1rolls
C38FB	38mm×12m	1rolls
C50FB	50mm×12m	1rolls

Elastic Tape

(allows wide range of motion) Tape providing a good amount of stretch for joints and other areas where flexibility is required

(BEIGE)

battlewin™ Taping Tape E-Type (Elastic)

Stretch taping tape made by coating appropriately stretchy cotton with a rubber-based adhesive. As it imposes little pressure, it is ideal for use in areas with a large amount of joint movement or where flexibility is required, such as the knee, elbow, or shoulder.

CODE	SIZE	1BOX
E50F	50mm×4m	1rolls
E75F	75mm×4m	1rolls
E25	25mm×4m	24rolls
E50	50mm×4m	12rolls
E75	75mm×4m	12rolls

BOX TYPE

Tearable

(WHITE)

battlewin™ Taping Tape EL-Type (Elastic)

Highly stretchy and adhesive, this tape fits snugly wherever needed, whether on joints, muscles, or tendons. Causing little discomfort or compression during taping, it is easy to use even by people unused to or unskilled at taping.

CODE	SIZE	1BOX
EL50F	50mm×4.5m	1rolls
EL50	50mm×4.5m	12rolls
EL75F	75mm×4.5m	1rolls
EL75	75mm×4.5m	12rolls

BOX TYPE

Underwrap (to protect the skin)

Tearable

BOX TYPE

battlewin™ Underwrap U-Type (Non-adhesive)

For protecting the skin in hairy areas or for individuals who have allergic reactions to tape. Prevents the uncomfortable pain of tape removal, and alleviates skin irritation.

CODE	SIZE	1BOX
U70F	70mm×25m	1rolls
U70	70mm×25m	12rolls

Tearable

Bandages

Wrapping Bandage

Self-adhesive bandage that does not adhere to the skin, providing compression and immobilization simply by wrapping. Because the adhesive does not come into direct contact with the skin, it can be used without fear of causing significant itchiness or rash.

BOX TYPE

CODE	SIZE	1BOX
KB25F	25mm×4m	1rolls
KB38F	38mm×4m	1rolls
KB50F	50mm×4m	1rolls
KB75F	75mm×4m	1rolls
KB38	38mm×4m	12rolls
KB50	50mm×4m	12rolls
KB75	75mm×4m	12rolls

Sports Bandage

For treating sporting and general injuries and providing compression and immobilization. A thick, elastic bandage that does not tend to slip during wrapping.

CODE	SIZE	1BOX
SPB62F	62mm×4.5m	1rolls
SPB90F	90mm×4.5m	1rolls

Serapoa™ Kinesiology Tape (joint/muscle support)

BOX TYPE

battlewin™ Serapoa™ Kinesiology Tape (with backing sheet)

Tape made of stretch beige cotton fabric coated with acrylic adhesive.

CODE	SIZE	1BOX

(with backing sheet)

battlewin™ Serapoa™ Kinesiology Tape Water-Repellent Type

Easy-to-use stretch adhesive tape with added water-repellent function and snug fit for all types of sporting use. For use in compression immobilization, sprain prevention, and icing. Simply apply to provide support for joints and muscles, while its water-repellent treatment resists water and sweat to help keep the tape from peeling off.

CODE	SIZE	1BOX
SEHA25F	25mm×4.5m	1rolls
SEHA38F	38mm×4.5m	1rolls
SEHA50F	50mm×4.5m	1rolls
SEHA50F2	50mm×4.5m	2rolls
SEHA75F	75mm×4.5m	1rolls

BOX TYPE

battlewin™ Serapoa™ Kinesiology Tape Strong Adhesive Type (with backing sheet)

Strong adhesive resists sweat during sport and water during swimming to ensure firm muscle support without peeling.

CODE	SIZE	1BOX
SRPH50	50mm×4.5m	6rolls
SRPH75	75mm×4.5m	4rolls

Tearable

(no backing sheet)

battlewin™ Serapoa™ Kinesiology Tape Water-Repellent Type FX

Fits snugly to joints and muscles with just the right amount of stretch and adhesiveness. Ideal for a wide range of uses, from sports such as jogging, tennis, and golf to the alleviation and prevention of fatigue and pain during everyday activities. Tearable tape means that scissors are not required. No backing sheet for easy use and fast application. Water-repellent treatment adds extra water- and sweat-resistant functionality, preventing the tape from peeling off.

CODE	SIZE	1BOX
SEFX25F	25mm×5.5m	1rolls
SEFX38F	38mm×5.5m	1rolls
SEFX50F	50mm×5.5m	1rolls

Taping Bag

Soft bag that is light, strong, and made from water-resistant materials for optimum functionality. A convenient way of storing and carrying taping materials.

Trainers Bag

Built to hold all the essentials required by trainers and allow their speedy removal. Made from hard material, with a shoulder strap for convenience in carrying. An essential item for schools and teams.

Guard Cushion

Highly cushioned while providing the right amount of compression. Ideal for protecting areas such as ankles, heels, and knees. Can be cut to size with scissors. 10 mm thick.

Taping Scissors

Special scissors for use in removing taping tape.

Gel Protector

High-performance hydrogel to protect chafing and blisters. The high-performance hydrogel used in the cushion contains 80% water, and its outstanding elasticity protects painful areas of chafing and blisters against friction and impact.
