

CARELEAVES™

MADE IN JAPAN

First-aid Bandage, Plaster

Fitting flexibly to the skin, application feeling like bare skin Nichiban's CARELEAVES™ continues to be selected after comparison

Waterproof Type

Power & Fit

Healing Power

Regular Type

Point 01

**Soft material fitting to skin movements
High-density non-woven urethane fabric**

Check! Comparison of non-woven urethane fabric by electron microscopy (×200)

Conventional type
Fiber diameter:
approximately 30 μm

High-density type
"CARELEAVES™"
Fiber diameter:
approximately 15 μm

Point 03

**No pain on peeling off
Pad gentle to the wound**

Point 02

**Excellent breathability,
hardly leading to a
white pruned state of
the skin**

Point 04

**Mildly-irritating adhesive agent,
resistant to water, hardly peeling off and
gentle to the skin**

Point 05

**The separator designed allows "no finger touch
to the padded area", keeping the pad clean**

For all over the world

CARELEAVES™

Waterproof Type

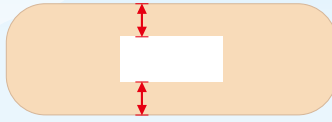

Product Number	Adhesive	Pad	1 Box/Sheets
CLB20M	25mm×70mm	12mm×22mm	20sheets
CLB40M	25mm×70mm	12mm×22mm	40sheets
CLB24S	18.5mm×55mm	7.5mm×17mm	24sheets
CLB14L	30mm×72mm	16mm×29mm	14sheets
CLB8A	57mm×60mm	13mm×35mm	8sheets

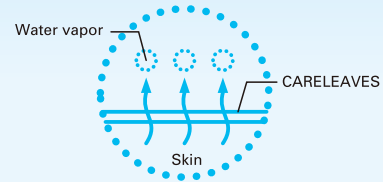

Waterproof first-aid bandage that keeps water out and is unaffected by movements of the body.

Water-impervious property and fitting to skin movements

Water invasion is blocked by designed tape-width

Water-impervious and moisture-permeable properties hardly lead to a white pruned state of the skin

CARELEAVES™
